Notes:

Mr. Larson is a consultant for CPR. On 1/24/2013, he was contacted about why the report was filed months after discovery. He informed me that the date of 7/2/2012 is the date the consultants received the lab results, however it was not until recently that he was asked by CPR to file the EIR with the NDDoH. He said that the NDDoH was already aware of this particular incident, though this appears to be the only filing of it.

Date: 1/28/2013 **Status:** Reviewed - Assigned to NDDoH Division
